PROGRESSIVE®

Coverage anywhere you may roam

On or off the greens, a Golf Cart policy from Progressive can protect your vehicle in the event of all types of unexpected accidents—so you can focus on the paths ahead.

Extra protection that suits your needs

Adding your golf cart to your homeowners policy may seem like the easiest way to insure it. But, a typical homeowners policy only covers your cart around your residence or property. A Progressive Golf Cart policy offers peace of mind and protection *wherever you ride*. Custom coverage options include:

- **Accessory coverage**—Protects permanently-attached, aftermarket equipment against fire, theft, vandalism and collision.
- **Liability**—For more complete protection away from your home, you can get Bodily Injury and Physical Damage limits up to \$500,000.
- **Transport Trailer**—Cover the trailer you use to haul your golf cart; up to a \$10,000 limit.

Getting you back in the driver's seat

When you report a claim, your claims specialist, trained in all aspects of golf cart repair, will quickly manage the process from start to finish—so you'll be back on the road fast.

Protecting a wide array of golf carts

With Progressive, you can get coverage for both on- and off-road use, and for gas and electric golf carts—including those manufactured by Club Car, Columbia, E-Z Go, and Yamaha.

In order to qualify for a Progressive Golf Cart policy, your vehicle needs to meet the following requirements:

- Four-wheel open vehicle
- Electric or gas
- Manufactured speed no greater than 20 mph
- Not legal for street use, except as allowed by local regulation for limited use

Vehicles that travel greater than 20 mph but less than 25 mph are considered low-speed vehicles and should be protected accordingly. If you're unsure, your Progressive agent can help you identify whether you own a golf cart, a low-speed vehicle, or a motor vehicle.
